125 Years of Power

# New competitive service product for the benefit of

- ▶ **There is hardly any industry in which the consequences of globalisation are felt more than in shipping. This means that ever more complex installations are being operated and relied upon by fewer human resources.**

Sauer has set itself this challenge. With the new simplified maintenance concept, Sauer Easy Care, we are able to meet the wishes of many of our customers.

The maintenance intervals for all the starting air compressors have been clearly simplified. The intervals are now 1,000 hours, 2,000 hours, 3,000 hours and 4,000 hours for all models. Only one single order number is now required for each maintenance stage for the parts kit so that all the materials required for maintenance are delivered in a reliable manner.

## Your benefits of Sauer Easy Care

- All the parts required for maintenance contained in one kit
- Guaranteed high quality Sauer parts
- Valve repairs and spare parts stores no longer required
- Stable low budgeting and maintenance costs
- More transparency for ship's orders
- Reduced work load for your technical and purchasing staff

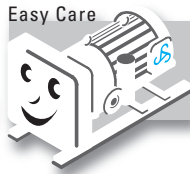

Sauer – dependable Service

the operator:

Sauer  
Easy Care

Take profit of our experience – get all  
spares required for best performance

Interval [hours of operation]	Maintenance work						
	50 h after initial commissioning	50 h after last maintenance routine or repair	At least annually at < 1000 h	1000 h	2000 h	3000 h	4000 h
Maintenance set item No.				069206	069200	069205	069201
